1. Rabrovo chrome mine is located two kilometers from Valandovo, Macedonia.
2. Administrative Director of Rabrovo mine is a certain Blagoje from Skoplje, and Technical Director is a certain Dimitrije Liska. The political leader is a "dangerous Communist" from Valandovo.
3. The ore produced is transported by truck to the railroad station at Mirovec, which is located on the line between Skoplje and Djerdjelije. The first class ore is then shipped to the United States, and the rest goes to Djordje Petrov (formerly Hanrijevo) for processing.
4. Around 1949, an attempt was made to increase the mine's output, but it was not successful because the ore reserves were nearly exhausted. A new mine was to have been opened in 1950 in Kazandol, located about ten kilometers away from the Rabrovo mines.
